- Well elasticity, soft & durable comfortable.
- Prevent the sound leakage. So that can enjoy more vibrant sounds.
- Antislip, have better grip on ears.
- Dust proof, foam earpads can block the outside dust into the earplugs, protect the earplugs from damage.
- Thick Foam Earpads - Help to Cushion the Headphones, Making them Comfortable to Wear .

PRODUCT DESCRIPTION

The foam headphone cushions are made out of a polyurethane open-cell foam material that is flexible and will stretch around the circular and oval shaped earpieces. The foam material that we use is generally higher in quality (and made to last longer) than the foam earpads that originally came with most headphones and headsets.

SPECIFICATIONS

Size	50MM
Material	Polyurethane
Dust Proof	Yes
Noise Isolation	YES
Compatibility	45mm - 55mm
